

A/C GAS RECOVERY

ARR - 1100F

FEATURES

- Refrigerant recovery, recycle and recharge
- Vacuum function
- Leak detection
- Electronic scale for full-automatic refrigerant recovery
- Electronic scale for refrigerant recharge
- Electronic scale for refrigerant oil recharge
- Self-cleaning function: After the recovery operation, all the refrigerant remained in the recovery machine will be charged to the cylinder compulsorily
- Full automatic function: press one key and complete recovery, vacuum, recharging.

SPECIFICATIONS

Compressor Power	: 260W
Vacuum Pump Speed	: 60L/min
Weight Scale Capacity for Refrigerant	: 60kg
Weight Scale Accuracy for Refrigerant	: $\pm 10g$
Weight Scale Capacity for Oil	: 2Kg
Weight Scale Accuracy for Oil	: $\pm 2g$
Recovering Speed	: 120-150g/min
Recharging Speed	: 800g/min
Tank Capacity	: 12L
