

A/C GAS RECOVERY

ARR - Value 100

Technomatic ARR Value-100 A/C Service Station, automotive cleaning and care series, A/C Gas recycling machine.

It is the latest production for refrigerant recovering and recharging, developed based on the advanced technology of VALUE series designed by Ecotechnics S.P.A. Italy, with exquisite and competitive design, nice shape and more durability, fully considered the applicability and economy, will certainly satisfy its users.

FEATURES

- Professional Industrial Design and Perfect Appearance
- Combined Advanced Technology to Ensure Stable and Reliable Quality
- Selecting High Standard Components to Ensure Used Unfailingly
- Failure Rate Near to zero by using integrated module with patented technology
- Higher Oil Separation Efficiency
- Long-term After-service Support
- Graphic Representation of Operating interface is easy for users
- Simple and Convenient to Maintain

SPECIFICATIONS

Power	:	AC220V±10%-50/60Hz
Recharging precision	:	±15g
Recovery Efficiency	:	84-100%
Oil Separation Efficiency	:	96-100%
Max. Pressure	:	17.5bar
Compressor	:	3/8 HP
Vacuum Pump	:	4CFM
Ultimate Vacuum	:	5Pa
